A CHESS SET
INSPIRED BY YOU

A custom-made set lets you choose the design, dimensions, materials and colour combination. Together, we will bring them into a set for your games, your interior or a personal gift.
This catalogue guides you through the designs and customisation options. Each section explains what you can choose; colour charts are at the end. You do not need a finished design. Simply tell me what caught your eye, and I will gladly help with the details.

How does a custom order work?

Your idea

1 Tell me your preferred design, dimensions and colours.
If you are unsure, I will gladly help you choose.

Refining the design

2 Together, we will refine the materials, colours and personal details.
Before production, we will agree on the final design, price and estimated completion date.

Making and delivery

3 I begin making your set once the design is approved and payment has been received. Production and delivery usually take 4-6 weeks.

Send a no-obligation enquiry to info@chessbyjass.com.

· 31 × 31 × 1 cm - without coordinates

EUR 288

TRANSPARENT WITH FLAKES

Handcrafted chess sets in clear or transparent coloured epoxy resin with decorative flakes. For the second, main board colour, I recommend an opaque pigment paste to contrast with the transparent areas. Explore the shades in the colour charts at the end of the catalogue. Other combinations are available by arrangement.

Piece bases

Choose felt or leather.

Includes the chessboard, a complete set of 32 chess pieces and 10 spare pieces.

Flake colours

Champagne gold, silver or rose gold.

FLOWERS AND DECORATIVE DETAILS

A chess set with flowers or other decorative details cast in epoxy resin. Colours can be tailored to your vision using transparent dyes and opaque pigment pastes. By arrangement, you can also provide your own flowers or decorations.

Piece styles

· Single-colour
· Two-tone, split into halves
· Clear, transparent coloured or opaque

ASH

Light wood with a distinctive natural grain.

Board dimensions and set prices

· 40 × 40 × 3 cm - EUR 530
· 40 × 40 × 4 cm - EUR 654
· 25 × 25 × 3 cm - EUR 329
· 25 × 25 × 4 cm - EUR 370

WALNUT

Darker wood with warm brown tones and an elegant grain.

Board dimensions and set prices

· 40 × 40 × 3 cm - EUR 613
· 40 × 40 × 4 cm - EUR 736
· 25 × 25 × 3 cm - EUR 391
· 25 × 25 × 4 cm - EUR 432

EBONY

Very dark wood that gives the set a distinctive character.

Board dimensions and set prices

· 40 × 40 × 3 cm - EUR 818
· 40 × 40 × 4 cm - EUR 983
· 25 × 25 × 3 cm - EUR 493
· 25 × 25 × 4 cm - EUR 576

Each piece of wood has its own grain and shade. The finished appearance may therefore naturally differ from the photographs.

COLOUR CHARTS

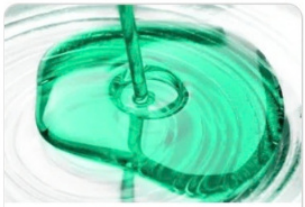

Choose the shades for your chessboard and pieces.
Transparent dyes preserve the clarity of the resin, while pigment pastes create solid, opaque colours. These options can be combined to suit your chosen design.
Dyes and pigments can be made lighter or darker to your preference. If you would like a colour outside the charts, please contact me in advance so we can explore the options together.

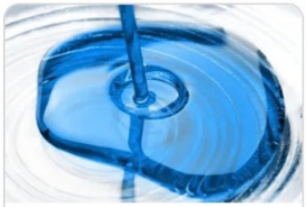

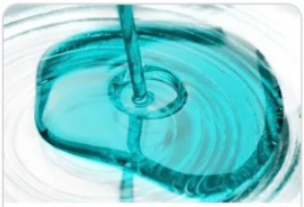

TRANSPARENT DYES

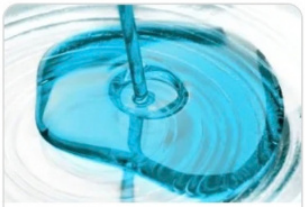

These add colour while keeping the resin transparent, revealing the wood grain, embedded decorations and depth of the iceberg effect. For a completely clear finish, the resin can be left uncoloured.

PIGMENT PASTES

These create rich, opaque shades for single-colour and marbled designs, and contrast with the transparent parts of a set.

The chart is a guide. The final shade may vary slightly with resin thickness, the amount of colourant, lighting and screen settings.

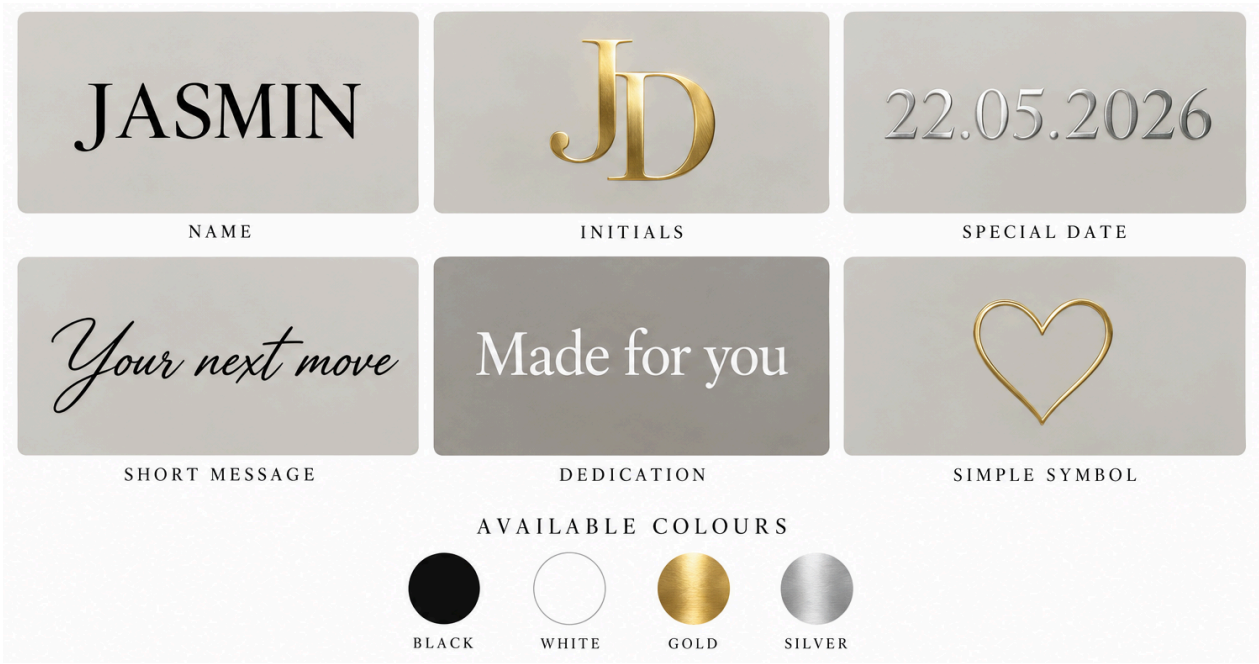

METALLIC PIGMENTS

These give the resin a metallic or pearlescent sheen. They suit both boards and pieces, including marbled designs.
Shades can be made lighter or darker to your preference. For colours outside the chart, please contact me in advance.
The chart is illustrative. The final shade and sheen may vary with lighting and pigment distribution.

PERSONALISATION

Add a name, initials, a special date, a short dedication or a simple symbol to your set. Choose black, white, gold or silver. Text can contain up to 15 characters. Together, we will choose a font and placement to suit the design.
Personalisation is available with clear and transparent resin. For opaque colours, I will check what is possible in advance.
Basic personalisation is included in the set price. I will gladly discuss special requests and quote for them individually.

Thank you for stepping into the world of Chess by Jass.

Have you chosen your set, or do you have an idea in mind?

Tell me the dimensions, design and colours that caught your eye. I will gladly help refine the details and create a chess set inspired by your vision.

I look forward to your ideas.
